**QUALITY • INNOVATION • RELIABILITY**

**FARM EQUIPMENT SPRING CATALOGUE 12 PAGE LIFT OUT**

**Italian Made**

Top quality Italian gearboxes for trouble-free performance

High quality oil seals in steel & rubber prevent external contamination from dust/water

Up to 65mm clearance between the frame and blades allows tilled soil to flow smoothly

A range of rotors, blades & roller options to match soil conditions

Breviglieri has a long history of innovation and development of top quality tillage machinery. Since 1949, Brevi have pursued and achieved continuous product innovation. The quality of their rotary hoes & power harrows speaks for itself. Silvan Australia has been proudly promoting the Breviglieri range since 2010.

Brevi rotary hoe's & power harrows are engineered to suit tractors from 10 to 400 HP. Silvan Australia stock Breviglieri rotary hoes from 85cm to 6.3m folding machines. Power harrows from 1.5 to 7m working widths are also offered. All machines in the Brevi range are designed and engineered for optimal results and efficiency.

## B40F SERIES

Suited to low horsepower tractors and ideal for small farms, nurseries, vineyards and orchards.

- 820, 1020, 1220, 1420 & 1620mm working widths
- 15 to 40 HP with side chain drive

## B55F SERIES

Rigid box construction rotary hoes suitable for medium sized farms and market gardens, preparation of ground and working in stubble and crop residues.

- 30 to 60 HP with side gear drive
- 1450, 1650 and 1850mm working widths
- 6 C blades per flange
- Cat I or II three point linkage

Floating top link allows the machine to follow ground contours

Components painted prior to assembly increases corrosion protection

Chassis made from high resistance steel

Precision balanced rotors for vibration-free operation

Over run clutch in gear box for driveline protection

Supporting skids

Quality belts for high power transmission

Since 1945, Nobili has been at the forefront of mulcher design and development. Stringent manufacturing processes ensure a very long service life in the most demanding environments. Silvan Australia has been Nobili's distributor since 1998 and proudly sell and support Nobili's unrivalled range of models.

Mulcher's cut grass, orchard pruning's and heavier organic material repeatedly resulting in a finer residue that decomposes quickly into humus, improving soil quality. Mulchers can be used in a wide variety of applications including: general clearing, crop residue management, pasture topping, orchards, vineyards, parks & gardens as well as roadside maintenance.

HR-MX/10

Dal Cero have a long history in the production of fertiliser spreaders. In more recent years there has been an increased focus on innovation and new technology to further develop their precision spreader range. The DCM range of twin spinner spreaders covers specialised horticultural applications through to high capacity broadacre applications with on-board weighing systems.

## CA TWIN SPINNER SPREADER

A versatile spreader with painted hopper for accurate spreading in pasture and horticulture applications.

- 900/1200/1500/2000 litre capacity
- Painted hopper with stainless steel spreading components
- Independent left/right hydraulic control
- Optional hopper cover

# Fertiliser Spreaders

## POLY HOPPER SPREADER

Suitable for small to medium spreading applications. Capable of spreading a wide variety of products including fertiliser and seed.

- 350L corrosion resistant UV stabilised polyethylene
- Stainless steel metering and spreading discs
- Optional hopper cover & single or double-sided conveyors available

WAS \$1,210

**\$1,050**

PL-500

## SX SPREADER

Features a galvanised metal hopper suited to small and medium spreading applications.

- 345 litre capacity
- Includes PTO shaft/drive
- Optional agitator and single-sided conveyor available

WAS \$1,045

**\$950**

SX-500GALHOP

## SP150 SPREADER

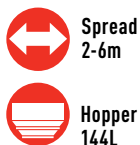

The SP150 trailed ATV spreader is ground driven and designed for spreading fertiliser on sporting fields, lawn and pasture. It is ideal for towing behind compact tractors and ATV motorbikes.

- Two piece cast aluminium gearbox with constant drive, one driven wheel, one free wheel
- 6.00 x 15" pneumatic tyres

WAS \$1,529

**\$1,450**

SP150

## TSP SPREADER

Ground driven and designed for spreading fertiliser and fine seed on sporting fields, lawns and pastures.

- The hopper is made from corrosion resistant UV stabilised polyethylene
- One manual control lever calibrated for quantity of application and a second control lever offers three settings for spreading pattern, left, right and full.

WAS \$3,630

**\$3,450**

TSP-500

## SQT OSCILLATING SPREADER

The oscillating spreader is designed for precise application of fertiliser and seed at medium to low rates.

- Heavy duty construction for long service life
- Manufactured from non-corrosive UV stabilised impact resistant polyethylene
- Frame is made of galvanised, high strength steel
